ABOUT FAMILY CAMP WEEKEND

WHAT TO EXPECT

LIFE WITH NEUROFIBROMATOSIS CAN BE CHALLENGING AND SOMETIMES LONELY.

Neurofibromatosis Family Camp Weekend creates a space where people and families touched by Neurofibromatosis come together in a welcoming, structured setting. Through shared stories and experiences, participants find connection and feel less alone.

Each September, on the weekend after Labour Day, individuals and families can take a break from daily life, meet others who truly get what living with Neurofibromatosis means, and take part in activities built on respect, compassion, and community support.

Neurofibromatosis Family Camp Weekend offers a thoughtful blend of fun activities, social time, and relaxation for everyone.

You can look forward to:

Meeting people and families of all ages affected by Neurofibromatosis

Recreational and group activities

Quiet time to unwind and chat informally

Peer and Parent Support Group sessions (attendance completely optional)

A warm, inclusive camp atmosphere

The schedule is deliberately flexible so individuals and families can engage in whatever way feels right for them.
